

**MAREN 14**   
**Legacy Series**  
dust-woodchip baler

**MAREN**  
**Balers & Shredders**  
Building customer loyalty since 1962.

The **Model 14** automatically bales or bags wood shavings, sawdust, even paper dust... faster, with automatic efficiency and convenience.

## **Model 14 Automatic Wood Shaving, Sawdust & Paperdust Baler**

*The ONE SOURCE for innovation for your Waste Management System.*

## SPECIFICATIONS:

The Model 14 is capable of baling from 3,000 to 4,000 pounds of material per hour. It is designed for use in lumber mills, saw mills and millwork plants, but exerts enough pressure to form extremely dense bales of paper, textile materials, paper dust and a wide variety of other materials.

Installation of the **Maren Model 14** is easy. No pit or special foundation of any kind is required. Unit is shipped with oil in hydraulic reservoir and is pre-wired ready for operation. Just move it in, connect control panel to power and start baling.
